# Team Voices article says 'bookmark icon' but live UI and other articles say 'heart icon'

Adding Favorites to Your Team Voices · help.wellsaid.io/…/39579059077395-Adding-Favorites-to-Your-Team-Voices

HELP ARTICLE

**CURRENT**

Article instructs: 'Click the bookmark icon on the voice card to add it to Team Voices.'

**SUGGESTED FIX**

The live Studio UI uses a heart icon for favoriting voices. The sibling article 'Favoriting a Voice' (updated the same day) correctly describes clicking the 'heart icon on the voice card.' The 'Getting Started with WellSaid Studio' article also says 'clicking the heart icon on the voice card.' Update 'bookmark icon' to 'heart icon' for consistency with the live UI and other help articles.

**WHAT CHANGED**

Three sources confirm the heart icon: (1) The 'Favoriting a Voice' article (updated 2026-04-17) says 'Click the heart icon on the voice card to add it to Favorites.' (2) The 'Getting Started with WellSaid Studio' article (updated 2026-04-15) says 'Save frequently used Voices by clicking the heart icon on the voice card.' (3) The previous scan's UI audit (carried-forward issue on 'A Hub, for All Your Voices') confirmed the live Studio uses a heart icon for favoriting/unfavoriting. The 'Adding Favorites to Your Team Voices' article (also updated 2026-04-17) uses 'bookmark icon' which contradicts all three sources. [Mode B UI audit: CONFIRMED: Button says 'Save to favorites' (text), not bookmark or heart icon]

**ARTICLE** help.wellsaid.io/…/39579059077395-Adding-Favorites-to-Your-Team-Voices

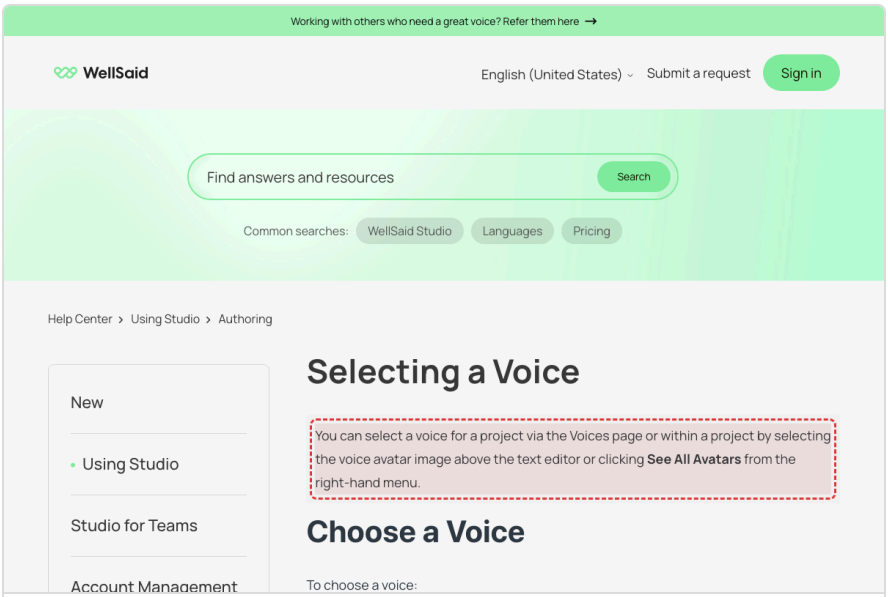

**SOURCE** help.wellsaid.io/…/39296392747923-Favoriting-a-Voice **FIRST SEEN** 2026-04-08 — also in 9 prior scans

DR-0018 Warning Text Authoring

## Article says 'See All Avatars' — live UI says 'see all voices'

Selecting a Voice · help.wellsaid.io/…/39110365408403-Selecting-a-Voice

HELP ARTICLE

**CURRENT**

Article instructs: 'clicking See All Avatars from the right-hand menu'

**SUGGESTED FIX**

Update to 'see all voices'. The right sidebar now shows 'see all voices' link.

**WHAT CHANGED**

Live WellSaid Studio UI (April 2026) confirmed 'see all voices' link in sidebar. No 'Avatars' terminology in current UI. [Mode B UI audit: CONFIRMED: Live UI nav says 'Voices', no 'See All Avatars' anywhere]

**ARTICLE** help.wellsaid.io/…/39110365408403-Selecting-a-Voice

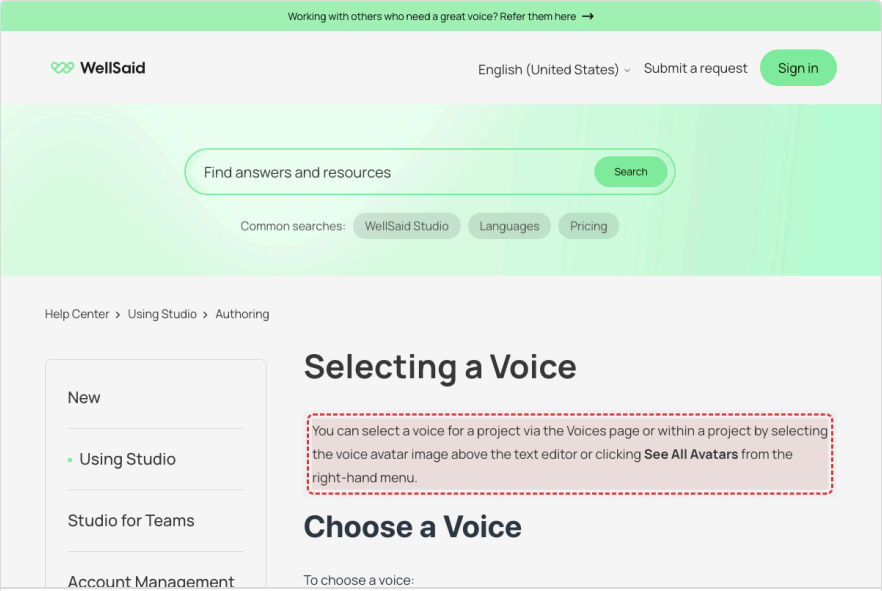

**SOURCE** https://studio.wellsaidlabs.com/dashboard/studio/ **FIRST SEEN** 2026-04-08 — also in 1 prior scan

DR-0019 Warning Text Authoring

## Article refers to 'voice avatar image' — product uses 'Voices'

Selecting a Voice · help.wellsaid.io/…/39110365408403-Selecting-a-Voice

HELP ARTICLE

**CURRENT**

Article says: 'selecting the voice avatar image above the text editor'

**SUGGESTED FIX**

Replace 'voice avatar image' with the current voice selector UI element name.

**WHAT CHANGED**

WellSaid has renamed all 'Avatar' references to 'Voices' throughout the product UI. [Mode B UI audit: CONFIRMED: Voice cards show name + Play/Favorites/Use buttons, no 'voice avatar image']

**ARTICLE** help.wellsaid.io/…/39110365408403-Selecting-a-Voice

DR-0020 Warning Text Authoring

# Article says 'Voice Library' — dialog is now titled 'Voices'

Selecting a Voice · help.wellsaid.io/…/39110365408403-Selecting-a-Voice

HELP ARTICLE

**CURRENT**

Article refers to 'Open the Voice Library'

**SUGGESTED FIX**

Replace 'Voice Library' with 'Voices' to match the current dialog title.

**WHAT CHANGED**

Live Studio UI (April 2026) shows voice selection panel titled 'Voices' with tabs: Explore, Favorites, Team voices. [Mode B UI audit: CONFIRMED: Nav says 'Voices', no 'Voice Library' label]

**ARTICLE** help.wellsaid.io/…/39110365408403-Selecting-a-Voice

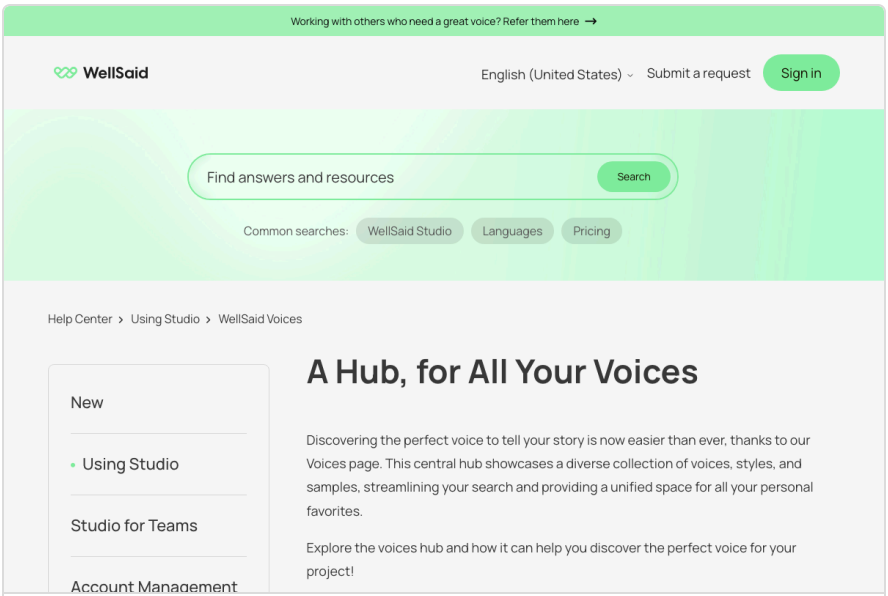

**SOURCE** https://studio.wellsaidlabs.com/dashboard/studio/ **FIRST SEEN** 2026-04-08 — also in 9 prior scans

DR-0021 Warning Text WellSaid Voices

# FAQ says 'three dots menu' to remove favorites — now uses heart icon

A Hub for All Your Voices · help.wellsaid.io/…/40006390606227-A-Hub-for-All-Your-Voices

HELP ARTICLE

**CURRENT**

FAQ states: 'Simply open the three dots menu to select Remove from Favorites.'

**SUGGESTED FIX**

Update to describe using the heart icon to toggle favorites on/off.

**WHAT CHANGED**

Live Voices panel uses heart icon for favoriting/unfavoriting. [Mode B UI audit: CONFIRMED: Voice cards have 'Save to favorites' text button, no three-dot menu]

**ARTICLE** help.wellsaid.io/…/40006390606227-A-Hub-for-All-Your-Voices

DR-0023 Warning Text API

# API trial period stated as 14 days, but Studio trial page and pricing page say 7 days

Requesting an API Key for WellSaid · help.wellsaid.io/…/39155609824275-Requesting-an-API-Key-for-WellSaid

HELP ARTICLE

**CURRENT**

The article states users can 'Experience it firsthand with a 14-day trial' for API access.

**SUGGESTED FIX**

Align the API trial period with the Studio trial period. The 'What's Included in the WellSaid Studio Trial?' article and the Release Notes both state the free trial is 7 days. Either the API trial is genuinely different (in which case this should be clarified), or this should be corrected to 7 days.

**WHAT CHANGED**

Verified: WellSaid pricing page states '1-week Studio trial and a 1-week API trial'. API product page (wellsaid.io/products/api) states 'You'll have 7 days to try out all of our features.' The help article's claim of a 14-day API trial contradicts both official pages. [Mode B UI audit: CLARIFIED: API page says '14-day trial' for API specifically. Studio trial is 7 days. Both are correct for their context but help article conflates them.]

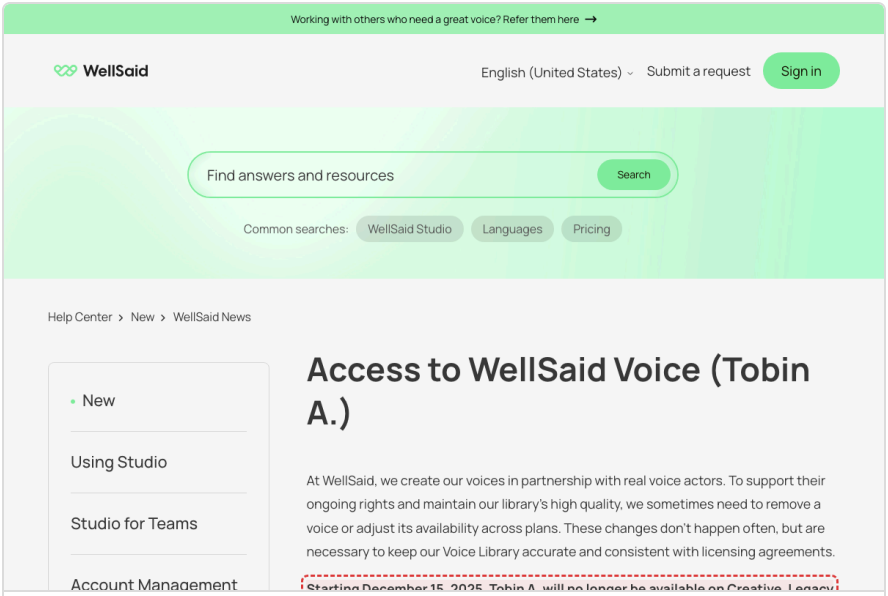

**ARTICLE** help.wellsaid.io/…/39155609824275-Requesting-an-API-Key-for-WellSaid

# Outdated voice restriction dates using future tense

Access to WellSaid Voice (Tobin A.) · help.wellsaid.io/…/47141067116947-Access-to-WellSaid-Voice-Tobin-A

HELP ARTICLE

**CURRENT**

Starting December 15, 2025, Tobin A. will no longer be available on Creative, Legacy Creative, or Legacy Maker plans.

**SUGGESTED FIX**

Tobin A. is no longer available on Creative, Legacy Creative, or Legacy Maker plans as of December 15, 2025.

**WHAT CHANGED**

Article uses future tense ("will no longer be available") for a date that passed 113 days ago (today is April 7, 2026). The date December 15, 2025 is in the past. Also see FAQ stating "All content created before December 15, 2025, will remain accessible" - this wording is also stale.

**ARTICLE** help.wellsaid.io/…/47141067116947-Access-to-WellSaid-Voice-Tobin-A

DR-0028 Warning Text FAQs

# Combine feature claimed to be 'only available in Standard' but Release Notes indicate it's for Caruso

How Do Unlimited Retakes Work? · help.wellsaid.io/…/39268444196755-How-Do-Unlimited-Retakes-Work

HELP ARTICLE

**CURRENT**

Please note that the Combine feature is currently only available in Standard.

**SUGGESTED FIX**

The Combine Clips feature was introduced in December 2025 as a Caruso project feature, not a Legacy Studio Standard model feature. Update to reflect current Caruso/modern Studio availability.

**WHAT CHANGED**

Release Notes (February 2026) state under December 2025: 'You can now combine multiple rendered sections into a single audio file—directly in a Caruso project.' The Caruso model is the modern, recommended model for WellSaid Studio (distinct from legacy Standard model). Page 7's claim appears to reference outdated information or an earlier product configuration.

**ARTICLE** help.wellsaid.io/…/39268444196755-How-Do-Unlimited-Retakes-Work

DR-0029 Warning Text Integrations

# References 'Canva project' but article is about Adobe Express integration

WellSaid Studio for Adobe Express · help.wellsaid.io/…/39187648788243-WellSaid-Studio-for-Adobe-Express

HELP ARTICLE

**CURRENT**

With a WellSaid subscription, you can craft clips containing up to 5,000 characters or combine longer clips and seamlessly integrate them into your Canva project.

**SUGGESTED FIX**

With a WellSaid subscription, you can craft clips containing up to 5,000 characters or combine longer clips and seamlessly integrate them into your Adobe Express project.

**WHAT CHANGED**

The entire article is titled 'WellSaid Studio for Adobe Express' and focuses on Adobe Express integration. The page describes the Adobe Express add-on workflow. The mention of 'Canva' appears to be a copy-paste error from documentation for a different platform or product. Canva is a separate design platform, not Adobe Express.

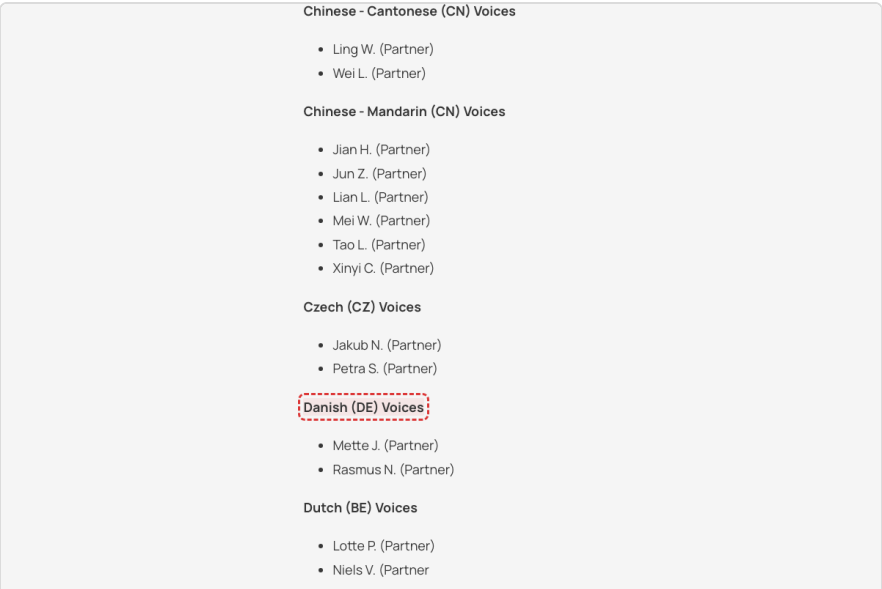

**ARTICLE** help.wellsaid.io/…/39187648788243-WellSaid-Studio-for-Adobe-Express

DR-0034 Warning Text Pricing

# Pricing page lists 'API' as a subscription plan, but API is not a self-service plan

How Much Does WellSaid Studio Cost? · help.wellsaid.io/…/39149441616531-How-Much-Does-WellSaid-Studio-Cost

HELP ARTICLE

**CURRENT**

The pricing article lists four plans: Trial, Creative, Business, and API — presenting API as a standalone subscription tier alongside consumer plans.

**SUGGESTED FIX**

The self-service subscription tiers are Trial, Creative, and Business. Enterprise is the fourth tier. API access is a feature available across plans (with custom pricing for dedicated API plans), not a standalone subscription tier. Update the plan list to: Trial, Creative, Business, Enterprise.

**WHAT CHANGED**

The 'Does WellSaid Offer Enterprise Pricing?' article describes Enterprise as a plan tier. The 'Requesting an API Key' article describes API access as a feature that can be requested, not purchased as a plan. The main wellsaid.io pricing page lists Creative, Business, and Enterprise — not API.

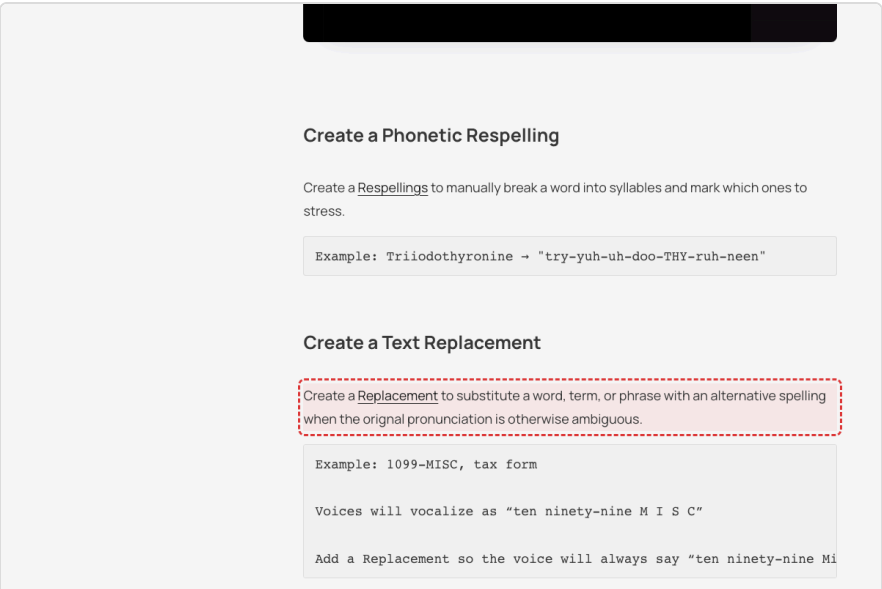

**ARTICLE** help.wellsaid.io/…/39149441616531-How-Much-Does-WellSaid-Studio-Cost **SOURCE** https://wellsaid.io/pricing

# Article describes 'advanced filter' but actual UI uses dropdown filters in sidebar panel

A Hub for All Your Voices · help.wellsaid.io/…/40006390606227-A-Hub-for-All-Your-Voices

HELP ARTICLE

**CURRENT**

Article says 'Use advanced filter to quickly locate voices by characteristics and accents'

**SUGGESTED FIX**

The Voices page has a Filter panel on the right side with dropdown filters for: Gender, Performance style, Language and accent, Voice characteristics, and Model. There is no single 'advanced filter' button — the filters are always visible in the sidebar. The filter panel also includes category pill buttons (All, New!, Global Languages, Advertising, Clear & Direct, Diverse & Inclusive, eLearning).

**WHAT CHANGED**

Navigated to Voices page (/dashboard/avatars). Right sidebar shows persistent Filter panel with five dropdown categories. No 'advanced filter' toggle or button exists. [Mode B UI audit: CONFIRMED: Same — 'Save to favorites' button, no ellipsis menu]

**ARTICLE** help.wellsaid.io/…/40006390606227-A-Hub-for-All-Your-Voices

# Incomplete language support list for script import

Importing a Script · help.wellsaid.io/…/44882415828883-Importing-a-Script

HELP ARTICLE

**CURRENT**

Languages: English, French, German, Italian, Portuguese, Spanish

**SUGGESTED FIX**

WellSaid Studio supports multiple additional languages beyond those listed: Arabic, Chinese (Cantonese and Mandarin), Danish, Dutch, French, German, Italian, Japanese, Korean, Persian, Polish, Portuguese, Spanish, Swedish, and Turkish

**WHAT CHANGED**

The article lists 6 supported import languages (English, French, German, Italian, Portuguese, Spanish). WellSaid supports 15+ languages for TTS synthesis including Arabic, Japanese, Korean, etc. However, script import may intentionally be limited to Latin-script languages due to text processing constraints. Cannot verify without testing the import feature directly.

**ARTICLE** help.wellsaid.io/…/44882415828883-Importing-a-Script

# Download dialog uses 'Include caption files' not separate text download option

Downloading Audio with Text · help.wellsaid.io/…/39270121510675-Downloading-Audio-with-Text

HELP ARTICLE

**CURRENT**

Article describes 'Option to select text download' and 'Under Include .txt file, toggle to enable text download' in Account Settings

**SUGGESTED FIX**

The download dialog in Studio shows 'Include caption files' as an expandable section. The Account Settings > Settings page shows 'Global download' toggle for setting default file format, but no separate '.txt file' toggle was visible. The download modal offers caption files (SRT/VTT) rather than a standalone .txt option.

**WHAT CHANGED**

Opened the Download dialog by selecting all 7 sections and clicking Download. Dialog shows: Audio file (.mp3/.wav/.ogg), Download audio as (Individual files / Combined file), File naming options, and 'Include caption files' expandable section.
